Micronas honored with “Quality Excellence Award 2016” from Denso

Thanks to superior product quality which meets the highest demands, Micronas received from its most important customer Denso Corporation the Quality Excellence Award.

Freiburg, July 5, 2016 – Micronas has received the “Quality Excellence Award” from Denso Corporation during a grand ceremony in Nagoya, Japan, on May 16, 2016. Micronas was recognized for its commitment and achievement in delivering high quality semiconductor products, its outstanding cooperation regarding Denso’s recently started overseas operations and for Micronas’ multi-area contribution to Denso’s global business expansion.

"We are very proud and honored to have been recognized by Denso for the Quality Excellence Award. This special appreciation has strengthened our confidence in our zero defect concept, which focuses on preventing defects from occurring in the first place", says Wolfgang Bossinger, Vice President Quality at Micronas. "The award represents a further milestone in being the most preferred partner for sensing and control".

###

About Micronas

Micronas, a TDK group company, is the most preferred partner for sensing and control. Micronas serves all major automotive electronics customers worldwide, many of them in long-term partnerships for lasting success. While the holding company is headquartered in Zurich (Switzerland), operational headquarters are based in Freiburg (Germany). Currently, the Micronas Group employs around 900 persons.
